

OM13532: SA616BS evaluation demo board

FOLLOW

[Overview](#) [Specifications](#) [Buy](#)[DESIGN RESOURCES](#)

Overview

SA616BS evaluation demo board is used for RF bench evaluation at 45 MHz RF; 455 kHz IF

Target Applications

- | | |
|--------------------------------------|---|
| Wireless data | Radio |
| Cordless telephones | RF level meter |
| Portable cellular FM IF | RF-IF narrow band receiver with 455 kHz limiting IF |
| Professional handheld radio receiver | |

Specifications

Technical and Functional Specifications

- SA616BS operating @ 45 MHz RF; 455 kHz IF
- RF bench evaluation
