Performance memory for everyone

Serious gamers are serious about our award-winning Ballistix and Ballistix Tracer products. At Crucial, we engineer these products to deliver the fastest, most reliable memory for gaming and performance enthusiasts.

But why should the most hardcore gamers have all of the fun?

If you're new to performance memory and like what Ballistix has to offer, the Crucial Ballistix Sport Series is a great place to start. This line was created for mainstream users and general enthusiasts. They feature heat spreaders for thermal performance -- along with standard timings and voltages, making this reliable, quality module ideal for maximum stability and compatibility.

Easy installation

Unlike traditional Ballistix products, those industry -standard specifications require no special or tricky BIOS configuration. That means this product installs easily, so you can get up and running quickly. And, it's priced affordably--so you can have your fun and stay on budget.

Available in both DDR2, DDR3, and DDR4 in the most common and popular speeds and densities, you'll be sure to find a product that suits your needs. And because it supports today's latest AMD and Intel platforms (including SandyBridge), Ballistix Sports Series memory works upon installation.

Guaranteed Compatible

Crucial Ballistix Sports Series memory is backed by our outstanding service and support, enjoys a limited lifetime warranty, and is guaranteed compatible.

Quick Delivery

Unfortunately my order was to replace a faulty RAM stick that I previously purchased (Same make) but it took me a long time to narrow down the problem, however the replacement ones are working perfectly fine and honestly I've not found any games I own which don't work well.

BOTTOM LINE Yes, I would recommend this to
