Easy peasy
 I am most happy with the crucial software I used to find the type of memory I have in my notebook computer. I simply ran the executable and was given many choices for memory options...

Comments about Crucial 1GB 200-pin SODIMM DDR2 PC2-5300:
 This memory was recommended by crucial but was not compatible. Neither of two sticks worked in either of the two memory slots in the A105-S2031. It would not even go into firmware setup, it would shut down. I do not believe that there was anything wrong with the memory, it was worth a try.

PROS CONS BEST USES

Comments about Crucial 1GB 200-pin SODIMM DDR2 PC2-5300:
 I have bought memory from Crucial for a number of years. Not a lot and not very often, but the experience is always the same: excellent.
 Paid for 2 day shipping, it took twice that long. They refunded the shipping promptly and cheerfully.
 Can't ask for better service.
