Murata is partnering with Ayla Networks to offer a complete end-to-end platform for building world class Internet-connected products. The Murata Type 1AD Wi-Fi Connectivity Module comes pre-loaded with the Ayla Embedded Agent, enabling developers to connect to the Ayla Cloud Services and smartphone/tablet applications based on the Ayla Application Libraries. The Ayla IoT Cloud solution provides developers a fast path to add smart phone and tablet-based control and monitoring to existing products. Leveraging ubiquitous Wi-Fi and the power of the cloud, users can securely connect to their devices from anywhere with an Internet connection.
