CY8CKIT-012 PSoC[®] Prototyping and Development Expansion Board Kit

Last Updated:Jan 25, 2018

Cypress's PSoC® programmable system-on-chip architecture gives you the freedom to not only imagine revolutionary new products, but the capability to also get those products to market faster than anyone else. This kit enables you to evaluate, develop, and prototype the exact circuit required for your application prior to creating a custom board.

Hardware Description:

- Five printed circuit boards
- Through-hole prototyping area
- Various pitch and pattern surface mounts
- Boards ready for permanently soldered circuits
