CY3295-MTK TrueTouch® Manufacturing Test Kit

Last Updated: Aug 11, 2015

CY3295-MTK TrueTouch® Manufacturing Test Kit

Cypress's TrueTouch® Manufacturing Test Kit enables customers and touchscreen manufacturing partners to test touch panels with Cypress TrueTouch® controllers. The tests performed by this kit are production quality and demonstrate the built-in manufacturing test capabilities of Cypress TrueTouch® controllers. This kit can be used for early touch panel development and prototype testing, as a final production test solution, or as an example/demonstration of how to implement a custom production test solution.

RELATED PAGES

[TrueTouch® Touchscreen Controllers](#)

CY3295-MTK Contents:

- TrueTouch® Bridge USB-to-I2C/SPI communications adapter
- Touchscreen Test Executive manufacturing test software (requires a PC with Windows® XP or Windows® 7 operating system)
- Manufacturing test supporting documentation
- TrueTouch® Bridge hardware design files
