Linear Technology offers many demo boards free of charge to qualified customers. Contact your local sales office or distributor to inquire about a demo board. Certain demo boards are also available for sale via credit card on this website. Simply click on a demo board number for more information on online purchasing. Demo boards are for evaluation purposes only. It remains the customer's responsibility to verify proper and reliable operation in the actual end application.

Use the controls on the left hand side of this page to search for demo boards by board number, part number, product family, or companion board. Click on any column heading to sort.

LTC recommends using Cadence Design Entry CIS 16.2 or newer to open .DSN files, and Mentor Graphics PADS version 9.5 or newer to open .pcb files

Demo Boards matching your search.
