### Appearance & Shape

### **Features**

- 1.The chip ferrite beads BLM02P series is designed to function nearly as a resistor at noise frequencies, which greatly reduces the possibility of resonance and leaves signal wave forms undistorted.

  BLM02P series is effective in circuits without stable
- BLM02P series is effective in circuits without stable ground lines because BLM02P series does not need a connection to ground.
- 2.The nickel barrier structure of the external electrodes provides excellent solder heat resistance.
- 3.BLM02P series can be used in high current circuits due to its low DC resistance.
- It can match power lines to a maximum of 1.1ADC.
- 4.The small size of BLM02P series (0.4x0.2mm) is suitable for advanced high-density mounting.
