**Part Number SW006022-1N - MPLAB XC16 Standard Compiler (Network Server License)**

**An EDN 2012 Hot 100 Product**

Please note: this is the network server license, and comes with a network license server. For the single-user, workstation license, see SW006022-1.

The MPLAB XC16 is a full-featured ANSI C compiler for the PIC24 and dsPIC microcontroller families. This compiler integrates into Microchips MPLAB(R) X IDE, is compatible with all Microchip debuggers and emulators, and runs on Windows, Linux and Mac OS X.

The MPLAB XC16 compiler also comes with 12 months of High Priority Access, a maintenance subscription providing web access to new version releases and priority technical support for the compiler.

**Standard Pricing:**

In stock (ships immediately): **18**
