**Part Number : SW006023-2 - MPLAB XC32 PRO Compiler (Workstation License)**

**An EDN 2012 Hot 100 Product**

The MPLAB XC32 is a full-featured, highly-optimized ANSI C compiler for the PIC32 Microcontroller family. This compiler integrates into Microchips MPLAB(R) X IDE, is compatible with all Microchip debuggers and emulators, and runs on Windows, Linux and Mac OS X.

The MPLAB XC32 Compiler also comes with 12 months of High Priority Access, a maintenance subscription providing web access to new version releases and priority technical support for the compiler.

Network Server Licenses are also available: SW006023-2N

**Part Number : SW006023-2N - MPLAB XC32 PRO Compiler (Network Server License)**

**An EDN 2012 Hot 100 Product**

Please note: this is the network server license, and comes with a network license server. For the single-user, workstation license, see SW006023-2.

The MPLAB XC32 is a full-featured, highly-optimized ANSI C compiler for the PIC32 microcontroller family. This compiler integrates into Microchips MPLAB(R) X IDE, is compatible with all Microchip debuggers and emulators, and runs on Windows, Linux and Mac OS X.

**Part Number : SW500011 - HI-TECH C compiler for PIC32 MCUs (PRO)**

**Microchip highly recommends the MPLAB XC32 PRO Compiler (SW006023-2) for new designs.**

HI-TECH C compiler for PIC32 MCUs fully implements the optimizations of Omniscent Code Generation™ - a whole-program compilation technology - to provide denser code and better performance for development on PIC32 MCUs. This ANSI C compiler integrates into Microchips MPLAB(R) IDE and is compatible with all Microchip debuggers and emulators.

The HI-TECH C compiler for PIC32 MCUs also comes with 12 months of High Priority Access, a maintenance subscription providing web access to new versions releases and priority technical support for the compiler. To Renew High Priority Access, click here ([SW500011-HPA](#))
