If the relays produced for MIL-PRF-83536/15 are similar in construction and design except for the suppression network to the relays produced for MIL-PRF-83536/16, then reduced testing for qualification of MIL-PRF-83536/15 relays may be performed concurrent with or subsequent to successful qualification of MIL-PRF-83536/16 relays. For reduced testing, see table V .
